AliCare Medical Management Celebrates Its 25th Anniversary – Corporate Milestone Caps a Period of Steady Growth and Recognition

White Plains, NY...February 9, 2015

AliCare Medical Management (AMM) (www.alicaremed.com), a leading provider of high quality, clinically-based care management programs, and a member of the Amalgamated Family of Companies, is marking 2015 as its 25th anniversary year. The company, which is recognized for promoting optimum health outcomes, while containing health care costs and effectively advocating for its patients, has been on a path of steady growth and recognition since its inception in 1990. Over the past two and half decades, AMM has grown to provide a comprehensive suite of care management solutions concurrent with receiving significant accreditations and honors.

According to David J. Walsh, President and CEO, Amalgamated Family of Companies, “AMM is a member company of which our entire organization is extremely proud. Not only has the firm lived up to its mission of providing excellent care management programs and services, it has done so while adhering to the highest standards of service. We are anticipating nothing short of another successful 25 years from AMM.”

AMM’s President Julie O’Brien noted that delivering excellence in its care management services is its top priority and pointed to two recent achievements as evidence. “In 2014, we celebrated 20 years of URAC accreditation, attesting to our meeting URAC’s quality-based standards for a two-decade period,” said O’Brien noting that the firm holds URAC-approved accreditation for its Utilization Management, Case Management, 24/7 Nurse Helpline and Independent Review services.

O’Brien also cited another important distinction which AMM received last year. “Last year also marked our receipt of two prestigious *Case In Point Platinum Awards*. These awards were given to us by Dorland Health at its 5th Annual Care Coordination Summit in May 2014. We received one Platinum Award for our 24/7 Nurse HelpLine and Barbara Schaeffer, our Director of Case Management, received a Platinum Award for Leadership in the individual professional category.” These awards were not the first Platinum Awards received by AMM. In 2013, the company’s Diabetic Management Program was honored with a *Case In Point Platinum Award*.

In addition to case management, utilization management, independent physician review and Nurse HelpLine, AMM offers disease management, hospital readmission management, maternity management, Health Information service, wellness health coaching and medical claims review and hospital bill auditing. These robust solutions, combined with its high caliber

team of experienced health care professionals, have made AMM the “go to” resource for healthcare providers and plan sponsors including Taft-Hartley multi-employer unions and diverse businesses.
